Quality. Value. Elegance.

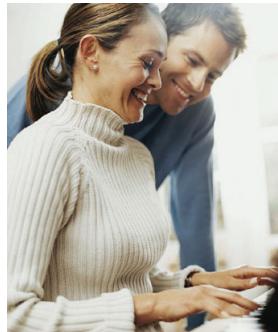

# *Handcrafted to Perfection*

**S**uzuki Musical Instruments is the World's largest producer of musical instruments for education and the most recognized symbol of quality in the music industry today. Our long association with music educators in every country gives us a unique perspective of the needs and desires of aspiring musicians everywhere.

Whether you are just beginning your musical journey or perform in the world's most renowned concert halls, Suzuki World Class Pianos is proud to offer an instrument that you will treasure for a lifetime.

Painstakingly built by hand and unparalleled in their beauty and musical range, Suzuki Pianos are surprisingly affordable. Compare our pianos by size and feature to any on the market today and it will become apparent that Suzuki Pianos are the highest quality and best musical value available from any source.

Suzuki Musical Instruments...The name you know in school, at home and around the world.

## **SZV-48 ACOUSTIC VERTICAL PIANO**

There is simply no substitute for the traditional style and sophisticated elegance of a magnificent vertical piano. Our top-of-the-line Acoustic Vertical Piano is an instrument of exceptional beauty and size, with a full, rich voice capable of filling even the most spacious rooms. An expansive soundboard and acoustic chamber give this 48" piano extended power and projection, making it an ideal choice for home, school, church or recording studio. A perennial favorite among discerning pianists, our Acoustic Vertical Piano offers outstanding musical performance that sets the standard by which others are measured. Ideal for a full range of pianists from beginner to pro, it offers the superb tonal and expressive control that are the hallmarks of the exceptionally responsive Suzuki Action (touch). Individually handcrafted from select materials by artisans with painstaking craftsmanship, our Acoustic Vertical Piano conveys every nuance of emotion. Unparalleled in beauty and dynamic musical expression, this amazing instrument combines a spruce soundboard and advanced German and Japanese technology to produce powerful, vibrant sound. You will treasure the graceful lines, timeless elegance and dynamic resonance of this upright piano priced far below others of its size, quality and precision.

#### **HIGH PRECISION SMOOTH ACTION**

The most complicated part of any piano is the action, and ours is no exception.

Composed of thousands of parts, all must be of the highest quality and precision of upright piano technology. The Suzuki type action utilizes a smooth hardwood mechanism with imported felt bushings and hammerheads featuring Japanese virgin wool felt coverings.

#### **GERMAN ROSLAU STRINGS**

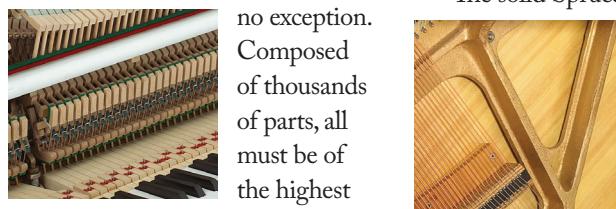

Their physical characteristics are paramount to the rich full resonant voice so important in our pianos. Using only the finest German steel as a base,

each string is hand wound with solid copper. This insures the high standard of tone quality expected from a Suzuki piano.

#### **SOLID SPRUCE SOUNDBOARD**

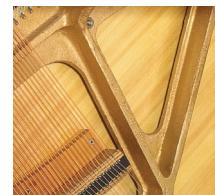

Vital to the sound quality of the piano, our soundboards are quarter sawn and shaped

to exacting design calculations.

The bridges are crafted from kiln dried select hardwoods.

The solid Spruce contoured ribs

are precisely engineered and strategically placed to insure that the all important

soundboard crown remains stable for the long life of the piano.

#### **HARDROCK MAPLE PINBLOCKS**

The 18 ply, cross grained, pressure laminated pinblocks are designed to offer tuning stability for generations

of musicians and reduce maintenance over time.

#### **CAST IRON FRAME**

We have engineered a fine grain cast iron frame to perfectly maintain the proper position of all the precision

components within the piano. This guarantees a Suzuki piano

will remain beautiful to play and enjoyable to hear over its long life.

#### **PROFESSIONAL CHROME HARDWARE**

This may seem like a small detail, but many off brand or no name acoustic vertical pianos

have unattractive gold hardware. The new Suzuki SZV-48 features the quality, European look of heavy chrome plating for that decorator appearance.

#### **EUROPEAN STYLE CABINETRY**

Suzuki's cabinet styling offers a timeless elegance. Built from select

hardwoods and painstakingly assembled, each piano is finished by hand with close attention to detail by master craftsmen, evoking an aire of stately elegance, quality and value.

All this culminates in an exquisite piano with a rich resonant sound. Deep textured bass, clear and free middle register and a brilliant treble make this an instrument that will thrill music lovers for generations to come.
