

## Welcome to the Focusrite Plug-in Collective

So far, the Focusrite Plug-in Collective have partnered with top plug-in developers including SoundRadix, Eventide and Positive Grid to provide registered Focusrite customers with great plug-ins, and a new offer will be in their accounts every month.

### This month's Plug-In Collective Offer: Eventide EQuivate

Free EQuivate plug-in and 50% discount off Eventide's Elevate Mastering Bundle from 5 July to 6 September

Perfect for mixing and mastering, EQuivate's auditory filters and match EQ functionality make it incredibly powerful, simple to use, and natural sounding. EQuivate uses filters which are modelled on the human ear. Each of the 26 critical bands tickles a different part of your inner ear, making any combination of settings sound as natural as possible. Combining this with a linear-phase filter shape that reduces pre-echo makes EQuivate an EQ with a difference you can hear.

Elevate Mastering includes Elevate, EQuivate, the Punctuate adaptive transient enhancer and the Saturate spectral clipper. The unique Elevate multi-band limiter, human-ear EQ and powerful audio maximiser will increase the loudness of your mix while maintaining or improving its dynamic perception. It uses intelligent, adaptive technology that responds in real time to your music; creating not only the loudest, but the best sounding master.
